

Thank you for purchasing exclusive National Guard Cycling products. Keep in mind when wearing the NGC products you are representing the National Guard. Be proud and responsible cyclists as well as respectful of others. Remember by being part of National Guard Cycling, you are preserving our force, strengthening our future and empowering our families.

We encourage any National Guard service member, spouse, dependant, retiree, and/or contractor to join NGC regardless of your experience or ability level! The main focus is to have fun and to bring awareness to the National Guard as members cycle through the very communities where we live, work, and play.

National Guard Cycling Impact

Family Activity – Cycling is an activity in which the whole family can participate! It provides a venue where the family can observe their community from a new perspective while having fun and strengthening the family unit!

Support Network — NGC brings together families that share common interests. This sets the stage for friendships between families to grow and foster a strong support network. This is critical now more than ever! Current events require service members to deploy for various lengths of time, sometimes for a year or more! NGC aims to create a support system for the families of deployed soldiers and airmen to rely upon in the absence of their loved ones.

Healthy Lifestyle – Cycling is an activity that is healthy for everyone! It is an excellent low impact, cardio-vascular exercise. While spinning the pedals, NGC members not only receive a great workout, but also promote a healthy lifestyle for the National Guard!

Recruiting Tool — When wearing the NGC jersey and pedaling through the streets, members are moving billboards for the National Guard. The National Guard is always looking for new service members and this is an excellent means to do just that.

National Guard Pride — Whether you are out for a leisurely ride, participating in a NGC ride, or taking part in an official cycling event, NGC members are promoting the National Guard. This brings positive awareness to the National Guard, to families and to the community!
